

# THE COUNTY PAPER,

DAVENPORT & DOBYS,  
OREGON, MO.

Entered at the Postoffice at Oregon, Mo., as  
second-class matter.

Terms of Subscription:  
TWO DOLLARS A YEAR IN ADVANCE.

Advertising Rates,  
which are very reasonable, when the large cir-  
culation of THE COUNTY PAPER is considered  
will be made known on application to the Pub-  
lishers.

Money may be sent at our risk by Postoffice  
order, draft or registered letter.  
Correspondence and news are always desired,  
but letters must be brief and must have the  
signature of the author, and for publication  
but as a guarantee of good faith.  
Communications in the interest of candidates  
will be charged for at the rate of three cents  
per word, each in advance.  
Obituary notices will be charged for at the  
rate of ten cents per line and the Cash must  
accompany the manuscript.  
Rejected manuscripts will not be returned.  
Letters for publication should reach us by  
Tuesday noon to insure insertion in that week's  
paper.  
All letters should be addressed to  
THE COUNTY PAPER,  
OREGON, MO.

FRIDAY, APRIL 22, 1881

A powerful antidote to strychnine poi-  
son is found in chloral hydrate, which  
is given in very large doses with grati-  
fying success. Strychnine itself is now  
considered by a sort of medical consen-  
sus, to be the most important remedy  
for diphtheria.

If, within twenty years from now,  
there should happen another winter like  
the present and this generation does no  
more to encourage the growing of tim-  
ber than is now done, the consumption  
and destruction of it remaining the  
same as it is today, it is altogether  
probable that there will be serious suf-  
fering from want of fuel.

UNIVERSAL SUFFRAGE HUMBUG.  
Under Bismark's lead Universal suf-  
frage is secured. Lassie argued all  
abuses would cease under it. Greater  
mistake was never made. There are  
two reasons.

1.—There never has been, anywhere  
a test of universal suffrage. The better  
half of the people are excluded.

2.—The delegation to Congressmen  
and others of the power to make laws  
annihilates the popular right generally.  
Let all citizens vote and no act become  
a law until after the people vote for it.  
Universal suffrage is a humbug, other-  
wise.

CARLYLE'S BURIAL.  
Let us remember how Carlyle was  
buried the other day. Only a very  
few were present and everything was  
done with the barest simplicity. An  
humble hearse, a couple of carriages  
and a little procession of walkers. No  
ceremony at any place. The coffin was  
quietly lowered into the grave and then  
was heard the dull sound of falling earth  
on the coffin; not a word, without a  
line, without a sentence of praise or re-  
gret. Then those friends returned  
quietly and humbly as became poor,  
miserable wretches sentenced to the  
same fearful end, with execution high  
on them.

How becoming, how proper all this.  
Here was one whom monarchs delighted  
to honor, whom mankind during all  
ages will remember with respect, but  
with less ceremony than we use with  
outcasts. And so it ever should be.  
Contrast this with the wretched, bar-  
barously decorative, disgustingly osten-  
tation and oppressively expensive style  
we use used over city magnates or even  
the loud sounding of praises and at-  
tempt at display we see in the country.

WANTED, A CHANCE.  
How long will labor remain the toy  
of, as called, capital? Capital sits back  
and controls labor. What is capital?  
The only definitions applicable to the  
word so used are, the "means of in-  
creasing power"; and "stock in trade."  
Money certainly is not capital if labor  
has a fair show. Labor can do without  
money, but capital can do nothing with-  
out labor. Give laborers the same  
chance to exchange their products by  
circulating their credit that the so called  
capitalists have and we shall soon  
see which is "the means of increasing  
power". Talk of the dignity of labor!  
Bah! give it a fair field and it asks no  
favors nor honors. It will win all it  
wants soon enough. No thanks for your  
good soft words and hard terms.

HOW TO DO IT.  
When the great traveler and Greek  
scholar, Dr. Schliemann wanted to learn  
Greek, although his memory was very  
defective and he was a very poor young  
man struggling against adversity, who  
had picked up a little learning as he  
could, he went about it in the common  
sense way. Having become acquainted  
with a couple of Greek men he, by their  
aid, studied the modern Greek and in six  
weeks was quite familiar with it. He  
then took up Homer's Iliad and in three  
months mastered it, so that he could  
read it with comparative ease. Had he,  
unfortunately, gone to some college, he  
must have taken a two years course as  
"a preparatory", and followed it with  
four years of the regular course; after  
which, like 999 graduates out of every  
1,000, he could have, with difficulty, read  
ten lines in half an hour. Why? Because  
the college way is the way "how not to  
do it."

Types of toughened glass are made in  
France and a great success.

A few mines on Fryer Hill, Lead-  
ville, employ 1018 men, who draw \$2,  
340 dollars per month.

To encourage a few paper and type  
factories in the United States we are  
obliged to pay about double prices for  
paper and type.

The 33 anniversary of modern Spiritu-  
alism was celebrated by the Spiritual-  
ists at New York City, Boston, Chicago  
and many other points North and East,  
Sunday, March 27.

The revised New Testament will be  
put on the market by several American  
publishing houses at 10 cents per copy.  
Meanwhile parties are canvassing the  
country to sell at much higher rates.

Small pox is cured by Mexican doc-  
tors in three days, and no marks left, by  
treating the patient to cold drinks of  
cream tartar and water. The cream  
tartar is first dissolved in boiling water.

40 and 2-10 million dollars is the total  
value of all the gold, silver, lead, and  
copper produced from our mines last  
year. Less than 75,000,000 of this was  
gold and silver.

What is the difference between the  
wise man and the fool? He is one and  
they are thousands. The wise man as  
he goes through life picks up and stores  
away all the facts, worth remembering,  
for use as occasion demands. In at one  
ear and out at the other is the case with  
fools.

Recent remarks by Carlyle, as re-  
ported by the Rev. Dr. Cuyler: "I would  
like to see America. Ye may talk about  
your Democracy or any other 'crazy', or  
any kind of political rubbish, but the  
secret of happiness in America is that  
ye have got a vast deal of land for a  
very few people."

Nitro Glycerine making is a danger-  
ous business. Of nine managers of the  
works at Newbury, Mass., eight have  
been blown into "smotherens", not-  
ing but fragments of their bodies ever  
found, while the ninth is living, but  
blind from an explosion.

In almost every town and city in the  
state of Missouri where the Democrats  
have had control for very many years,  
at the election week before last the Re-  
publicans came in ahead by astounding  
majorities. Look at St. Louis, Kansas  
City, Booneville and many others! St.  
Joseph chose a peoples ticket, Rep. and  
Greenback, while even old Jefferson  
City has for once in her life become Re-  
publican.

The year 1816 called "1800 and froze  
to death" will never be experienced  
here. Those who fear it forget the vast  
regions of prairie, the rapidly warmed  
earth, the power of sun and south  
winds here. The vastly increased  
area of cleared lands forbids it.  
The Atlantic coast has no guaranty  
against a time when all the near ocean  
will be choked with ice bergs as hap-  
pened then and a repetition in a meas-  
ure of 18 froze to death. We need not  
fear it, as some apprehend.

HOW LONG.  
Noticing the subservience of our  
people to impositions put on them by  
the government for years and years,  
how perfectly quiet they are, not a word  
from them, we ask what might happen  
without the press were free? For it is  
only from the press that now and then  
comes up a wail or a curse. Take the  
railroads, the Standard Oil Company,  
the tobacco tax, the spirits tax, the tariff  
on steel rails, woollens and some other  
things, the tax on matches, drugs, and  
paper, and they form a list of abuses,  
horrors, outrages, robberies, that justify  
the death of the perpetrators. There  
are other things might be mentioned  
but here are enough. Nothing but utter  
stupidity and ignorance tolerates them  
one day longer.

TRUE RICHES.  
Richer than Vanderbilt with his al-  
most countless thousands of dollars is  
any contented man who has fewer wants  
than Vanderbilt. An ancient philoso-  
pher said, "the world has yet to learn  
the riches of frugality." Young man!  
would you be perfectly independent and  
as happy as mortality will permit, then  
try to live as cheaply as possible consist-  
ent with decency and wealth. The  
great mass of laboring people of the  
world live on but a little oatmeal or rice  
or some milk and black bread, or a lit-  
tle dried fruit and water from one year's  
end to another. Strange to us as it may  
seem, yet they are often the strongest,  
hardest, best looking people in the  
world and live the longest. There are  
few Americans who do not waste every  
day what would keep them a week.

Learn then to live on the least that  
is possible, not for the purpose of lay-  
ing up money but to become independent  
and powerful and long lived. The time  
and money his companions wasted on  
beer and tobacco, young Ben Franklin  
used to make himself a power in the  
world. He who is content with few  
wants may laugh at the idle rich as they  
roll by in their splendid equipages, for  
he is their superior, say what we may.

It would seem to be the intention  
of the rulers of the people in the United  
States to drive all except the very rich  
into using and wearing only just what  
they can produce. The people ought to  
quit using every article on which high  
taxes are put. It is incredible the  
amount paid by us as a tax on almost  
every article manufactured here at home  
or brought here from other countries. It  
amounts to not less than 20 dollars for  
every man, woman and child per  
year, and probably to much more.

Oh, What A Cough!  
Will you heed the warning. The sig-  
nal perhaps of the sure approach of that  
more terrible disease Consumption.  
Ask yourselves if you can afford for the  
sake of saving 50 cts., to run the risk  
and do nothing for it. We know from  
experience that Shiloh's Cure will Cure  
Cough. It never fails. This explains  
why more than a Million Bottles were  
sold the past year. It relieves Croup,  
and Whooping Cough, at once. Mothers,  
do not be without it. For Lane Back,  
side, or Chest, use Shiloh's Porous  
Plaster. Sold by T. S. Hinde, Oregon  
Mo.

How to make soap for a cent a pound  
—Shave into small pieces five bars of  
Dobbin's Electric Soap, and boil in  
three quarts of water until the soap is  
thoroughly dissolved, so that upon  
straining through a sieve nothing re-  
mains; add to the solution or "suds"  
three gallons of cold water; stir briskly  
for several minutes to mix, and set it  
away to cool. This it will look like  
nothing but soap-suds while warm, a  
chemical reaction will take place, and  
in twenty-four hours time will develop  
forty or fifty pounds of magnificent and  
white soft soap, costing less than one  
cent a pound, and as good as many of  
the adulterated compounds called soap,  
and sold at seven to ten cents a pound.  
How long would it take for any other  
soap used the same to become anything  
but "soap suds"? Any housewife  
knows that it can not be done with any  
soap she has ever used. See if it can  
be done with Dobbin's Electric. For  
sale by all grocers: Nave McCord &  
Co., Wholesale Agents, St. Joseph, Mo.

CALIFORNIA KIDNEY TEA.  
For Lane Back and all Kidney troubles.  
Fifty cents. Ask to see it at King &  
Proud's, Oregon; France & Co., For-  
est City.

Dr. C. C. Gilleland, Gallatin, Mo.,  
writes "I never used or sold a remedy  
for the Blood and Liver, that gave as  
good satisfaction as Ext. Sarsaparilla,  
Dandelion and Iodide of Potassium,  
Manufactured by the Brown Medicine  
Co., Leavenworth, Kas."

Dr. J. Way, Hillsdale, Iowa, writes:  
"I have used Ext. Sarsaparilla, Dan-  
delion and Iodide of Potassium in my  
practice, and consider it the best remedy  
ever made for the Blood and Liver  
and for Scrofulous and Skin diseases."

Dr. Shackel, Columbus, Kas., writes:  
"Your Ext. of Sarsaparilla and Dan-  
delion is the best medicine of the kind  
in use."

M. L. Vinton, Oakland, Kas., says:  
"My son, 10 years of age, was cured of  
a scrofulous rising in the head, which  
had troubled him from infancy, by us-  
ing six bottles of Sarsaparilla and Dan-  
delion."

For sale by T. S. Hinde & King &  
Proud, Oregon; Simpson & Muir,  
E. D. Anibal, Bigelow; and West &  
Young, Forbes.

THUNDER  
AND  
LIGHTNING!

Peret & Bro.,  
OREGON, MO.,

Sole Agents for the Munn Patent  
Copper Cable

LIGHTNING ROD.

Our Mr. H. E. Peret, having been engaged in  
the Lightning Rod business for the past four  
years, refers to the hundreds of parties for  
whom he has done work—all of whom are sat-  
isfied. Having associated his brother with him  
in business and taken the agency of the above  
rod which they consider the very best manufac-  
tured, they ask the patronage of all who desire  
safe protection against Lightning.

DEAL WITH MEN YOU KNOW.  
Beware of Chicago "Jumpers" who will  
swindle you by furnishing inferior rods and  
charging double prices. Our homes are in Holt  
county and we expect to continue to live here,  
hence, it is to our interest to deal squarely and  
honorably with the people and we intend to do  
so.

PERET & BRO.,  
Oregon, Mo.
